MINING, BUSINESS AND STOCKS.

TOMORROW IS DIVIDEND DAY

Grand Central and Victoria May Enter List in Addition to Colorado Iron Blossom and Sioux.

morrow is dividend day for several Utah mining companies, including Colorado, Iron Blossom and Sloux Con.,

eral Utah mining companies, including Colorado, Iron Blossom and Sloux Con., all of which are expected to come forward with the usual amounts. There is said to be no doubt about the Colorado distributing its 8 cents a share or \$80,000 on the 20th, and those who are close to Jesse Knight in the city say that the Iron Blossom will certainly make a distribution of \$80,000 for Xmas. The company's treasury is said to be in a healthy condition, and such a course is fully warranted, it is said, by the condition of the mine.

The Sloux is expected to pay its stockholders 3 cents a share, amounting to about \$22,500, in spite of certain rumors about the condition of the company's treasury and the mine.

It is also stated on very good authority that the Grand Central directors will als) meet in Provo tomorrow to consider the advisability of handing out some comfort to the stockholders in the shape of a dividend, which, it is said, will not be less than 10 cents a share. The company's treasury is said to be in a very healthy condition, both on account of the developments at the mine and the fact that the Mammeth Mining company has paid over to the company about \$120,000 of the fine during the last 60 days. Another payment is promised this week or next, and the final payment Jan. 12, 1910.

It is also stated that there is a strong probability that the directors of the

It is also stated that there is a strong It is also stated that there is a strong probability that the directors of the Victoria, who are practically the same as the Grand Central, will also decide to make a Xmas present to the stockholders of that company. It is known that the company has been doing well of late, and in addition to paying its way, it has been laying aside a snug sum every month.

MARKET FEATURELESS.

May Day Weakened in Spite of Strike

—New York Advances.

The market was devoid of special features this morning. The New Jonanza reached a new high level today when it advanced to 15½, though the closing quotation was a little lower. In spite of the strike on the 1,000 level, which promises much for the mine May Day failed to maintain the advance of yesterday, and the stock fell back to 19 at the opening and then weakened to 18½.

The rest of the list are practically unchanged from yesterday. Colorado sold as high as 88, but was traded in at 84 at the close, while Iron Blossom' sold at 78 and 76. Sloux hung around 42 and Uncle Sam sold as low as 48. Mountain Lake loosened up a small lot at 4.

Closing quotations were as follows:

WILL NOT BE BROUGHT BACK.

Eddie C. Christie Makes Good His Getaway With Actress' Diamonds.

Eddie C. Christie Makes Good His Getaway With Actress' Diamonds, "Eddie" C. Christie, the bell boy "sneak thief," now under arrest in San Francisco, who is badly wanted in a number of places, will not be brought back to Salt Lake and prosecuted for stealing two diamonds, valued at \$300, from Miss Lulu Jordan, an actress, who lived at the St. Cecile hotel. Governor Willam Spry refused to sign requisition papers Wednesday, because Miss Jordan was not so anxious to prosecute the young men as she was to get him back here to secure her property. Christie is wanted in Denver, St. Louis and Chicago for similar offenses and he will probably be extradited by the Chicago officials.

Christie stole a large sum of money from a guest in a Chicago hotel where he was working and skipped. He started ed acrime of some sort in every city he stopped. In St. Louis he turned up missing about the same time as some jewelry was stolen out of a room in a hotel where he was working as a bell boy. He committed a theft in a Denver hotel and then came to Salt Lake where he stole Miss Jordan's diamonds. Christie took Miss Jordan's diamonds. Christie took Miss Jordan's diamonds. Christie took Miss Jordan's diamonds saying that she had ordered him to have them cleaned. He never returned to the hotel.

After Christie left Salt Lake, the police received word that he was wanted in a number of cities. Descriptions of the young man were sent to San Francisco and he was arrested there while employed as a bell boy.

TO ENFORCE LAW.

Juvenile Court Invoking Statute Against Pool Room Violators.

Dick Cox, proprietor of a pool room, was arrested Wednesday on a com-plaint issued by Job P. Lyon charging him with contributing to the delice nim with contributing to the delin-quency of Robert Howard, 17 years old. Efforts are being made by the Juvenile court to stop the practise of young men and boys playing pool, and a number of other complaints will be issued if the proprietors do not obey the law more strictly.

BOSTON ELY STRIKE.

Finding of Ore at Depth of 1,062 Im-

portant for the District.

Reports from Ely state that the Boston Ely shaft has penetrated for a distance of six feet into the ore which was broken into a few days ago in the shaft at the depth of 1,062 feet. The ore is reported to be identical in character with the Veteran ore and almost identical with that found at a corresponding level in the Alpha shaft of the Giroux Consolidated.

Regarding the strike the Ely Expositor has the following to say:

The finding of the ore is a complete vindication of the theory of Superintendent E. W. Ralph, who for nearly four years, in spite of the opposing theories of other mining men, continued to have faith in the lime country in which the property is situated.

For nearly four years Superintendent Ralph has gone ahead persistently and steadily and his perseverance and pluck have finally brought their reward both to himself and to his company.

The ore was found at a depth of 1,062

pany.

The ore was found at a depth of 1,062 feet. Of this depth, the lime was 885 feet deep from the surface, when the Ely jasperite was uncovered. This jasperite carried as high as 50 per cent pasperite carried as high as 50 per cent hematite of iron, and was thoroughly leached of its former copper contents. The copper values in this formation ran from a bare trace to one-half of one per cent copper.

On the contact between the lime and the jasperite, a body of carbonates was struck, carrying an average of 10 per cent copper with some gold and silver values.

This contact constitutes a favorable formation for the depositing of copper by the action of the water in its downward course, and some results were anticipated long before that level was reached.

COPPER MARKET DULL.

Output Continues to Maintain Its Lead Over Consumption.

Eastern reports concerning the copper situation state that it is one of waiting in local copper circles. Messers D. Houston & Co., say: There is abundant evidence that consumption in this country is now heavy. Manufacturers are using up large quantities of copper, and have been running day and night in some departments, it is an encouraging situation as far as the home demand is concerned, but the adverse market feature Eastern reports concerning the cop-

is the continued over-production at the mines, Output maintains its lead over consumption, and while that condition of affairs continues there is little chance left for the market to score a healthy, permanent advance. Railroad electrification plans will call for large qualities of copper in the future when the application of electricity to trunk line service and for freight purposes is taken up with energy. The utilization of electric power by railroads progresses slowly on account of the great expense connected with the introduction and the changes required, but when the work is begun in carnest copper will be in big demand.

The Boston Financial News in its review of last week says: The advance in the metal during the last thirty days was a full cent per pound, and the reaction that has taken place is not strange, especially as the statement of the European surplus showed an increase of about 14,000,000 pounds for the month. The situation now is that the large users of the metal have covered their requirements up to the first of February pretty well, and the largest producers have sold their outputs for the same periods. A quiet market for the time being is, therefore, to be expected. The small amounts for sales would be taken, except that it is good policy for the large consumers to leave the copper in the market for the purpose of establishing a low open price for trading purposes, The consumption of the metal is increasing, and the wire trade is beginning to show signs of greater activity. This is the branch of copper consumption that has lagged and where improvement will be most welcome.

FURNITURE TO COST \$8,000.

A. Pollock & Co. Award Contract

J. A. Pollock & Co. Award Contract
For Same to Freed Furniture Co.
In the equipment of its new offices
in the north half of the Felt building on
Main street, the firm of J. A. Pollock
& Co., bankers and brokers, has decided
to expend the sum of \$8,000. The contract for the furniture has been awarded to the Freed Furniture company,
and the stipulations require that
everything be of the very best. Cuban
mahogany will be used in the manufacture of the furniture, and the new offices, when finished, will be the most
elegant, it is said, between San Francisco and Chicago.

being \$12,500. The property has a frontage on South Temple of 41½ feet and extends back 165 feet. The plans for the new building, which are now being prepared, call for a building which will cover the entire plot with the exception of four feet on the side for a walk. The deal was closed by Kelly & Montrose, real estate dealers.

Kelly & Montrose, real estate dealers.

Don H. Porter, proprietor of the Kenyon hotel, leaves today for Stockton, Cal., where he will put in shape the new Stockton hotel, of which he will be manager. Sam S. Porter, his son, will remain in Sait Lake as manager of the Kenyon hotel. The fact that the elder Mr. Porter is to empark in business on the coast at the head of one of its greatest hotels has led to the rumor that he would dispose of all of his Sait Lake holdings. This he emphatically denies and adds further that he will increase his possessions in this city as opportunity affords,

The Manitou hotel, in east Third

possessions in this city as opportunity affords.

The Manitou hotel, in east Third South street, is to be remodelled and refurnished at a total cost of something like \$50,000 and will then be reopened under the management of Mrs. Ida M. Goodman, at present at the head of the Touraine hotel. All of the old furniture has been sold at auction and the new equipment will be of the finest, Samuel H. Auerbach, who recently made very heavy purchases of real estate in the neighborhood of Third South and State, included the Manitou in his buyings, and now intends to place it on a plane which will make it compare favorably with any other hotels in the city. The Manitou has gradually fallen away in prestige with the erection of larger and more commodious hotels and for some years has not been a paying proposition. The interior of the building will be entirely rearranged at an estimated cost of \$20,000, and the new furniture will cost about \$30,000. The Freed Furniture company have the latter contract.

Ike Jennings has decided to expend

Ike Jennings has decided to expend several thousand dollars in changing his home at 49 North Second West into an apartment house. When the improvements are completed, the building will consist of four flats of four rooms each, with all modern conveniences,

NEW INCORPORATIONS.

The Times Publishing company of Salt Lake, organized by about 25 local Democrats for the purpose of publish-Democrats for the purpose of publishing a newspaper, filed articles with the county clerk yesterday. The capital stock is \$10,000 in dollar shares, of which 7,650 are in the treasury. The officers are: Simon Bamberger, president; Frank K. Nebeker, vice president; Richard P. Morris, treasurer; M. F. Cunningham, secretary, and these are directors, with John Dern, James H. Moyle and Noble Warrum. Besides the directors, the list of the stockholders includes the names of Samuel Newhouse, William H. King, B. H. Roberts, O. W. Powers, John F. Tobin and several others.

An amendment to the articles of the

WEEKLY MARKET LETTER.

(Special Correspondence.) Kansas City Stock Yards, Dec. 6.-Cattle supply last week showed some reduction from recent weeks, but was still fairly good for the season. Range offerings embraced cattle from all over the range country, and shipments this week will be liberal from those sections also. The market was higher first of last week, but there was a decline after Tuesday, which applied mostly to fed cattle from native territory, westerns holding nearly steady during the week. The run today is 12,-000 head, market on westerns strong to 10 higher, although fed steers are up 10 to 15 cents today. Cows also strong to 10 cents higher; stockers and feeders firm. Colder weather last few days, together with prospects of a moderate run balance of this week, has stimulated the market on killing grades, Colorado beef steers selling at \$4.76 to \$5.35, cows and heifers \$3.75 to \$4.50, canners \$3.75 to \$4.70. Texas and New Mexico cows sell around \$3.50, and one of the features last week was the sale Friday of nine cars of Old Mexico cows here, direct from El Paso, at \$3.50 straight. Texas and New Mexico canners sell at \$2.75 to \$4.50, veal up to \$7.50, heavy calves \$4 to \$5.50. Caltie on feed in native territory around this market are short this season, and prospects favor light receipts here during the winter, with strong prices. Sheep and lambs are coming in moderate numbers, run today 7,000 head. The market advanced 15 to 25 cents last week, and sales today are higher again, top on lambs today \$7.85, best yearlings today at \$6.85, new high price records for the winter in each case. Some yearlings weighing 110 pounds, soid at \$6.55 Friday, considered a very strong price for animals of that weight. Wethers are worth up to \$5.75, ewes \$5.25. Some fat goats sold here last week at \$4, and a few shipments of feeding lambs from the range territory arrived and sold at \$5.55 to \$6.75. Fed stock is scant in the feeding area this season, and it seems that buyers will have to go hungry most of the time this winter, insuring a high range of value, particularly as there does not seem anywhere for consumers to turn to secure a cheaper meat. tory, westerns holding nearly steady during the week. The run today is 12.

STOCK PRICES UP AND STRONG

New York, Dec. 9 .- Prices of stocks te of the Bank of England Kansas & Texas rose 1½, American Smelting & point, and Union Gas, Baltimore & Ohio, Central Leather large fractions.

Central Leather large fractions.

The market made further headway upward before the realizing in United States Steel, Rending and in the local tractions became sufficient to affect prices. New York Central, Pennsylvania, Reading, Rock Island preferred, American Best Sugar and Colorado Fuel had been lifted a point. Union Pacific was up ¼ and Wabash preferred 1½.

Prices were pushed up here and there, but the general list was only steady and dull.

but the general list was only steady and dull.

Kansas & Texas rose 2%, the preferred, Northwestern, American Telephone, Utah Copper, American Sugar and Rock Island I to 1½, the preferred and United Rall-ways and Investment preferred 1%, American Woolen 1½ and Northern American and Amalgamated Copper 1½. Big Four lost 1%.

Bonds were firm.

Stocks were bought moderately but there was no concerted effort to put upprices except in individual cases. Most of the buying was in the class of dividend paying railroad stocks, After material advances had been made in the eastern trunk lines stocks, prices wavered slightly but came up again.

The market closed strong Stocks.

prices wavered slightly but came up again.

The market closed strong Stocks usually prominent in the dealings were quiet while others advanced here and there. Reading reacted a point. Norfolk & Western rose 2%, Pittsburg Coal 2%, American Telephone 2. National Rall-way of Mexico first preferred 1%, Pittsburg Coal preferred and Pittsburg, Cinclinati, Chicago & St. Louis 1½, Baltmore & Ohio 1½, and Southern Pacific, St. Paul and Northern Pacific 1. Grand Island first preferred declined 2% and Delaware & Hudson 1. There was a keen raily in the late dealings.

IN HOUR OF NEED Evidence in Police Court Brings Out Pathetic Story of Aban-

donment.

What is pronounced by Asst. County Atty. Aaron Myers to be one of the worst cases of neglect ever seen in this state, came to light today, when the preliminary hearing of Joseph E. Fow-ler was begun before Judge Bowman in police court. Fowler is charged with non-support and desertion of his

in police court. Fowler is charged with non-support and desertion of his wife and four little children, the oldest of which is only 3½ years old, while the youngest is but three months old, and two twins are two years old. The testimony by witnesses for the prosecution showed that Fowler had deserted his family last May, and that during that time he has provided nothing for their support and they have been destitute. Mrs. Fowler gave birth to a baby last August, after she had been insane for several months.

David M. Broberg of Salt Lake City, father of Mrs. Fowler, testified that he had hunted for his daughter for several months, and that he found her at last, in October, in Huntington, in southern Utah, where her husband had deserted her and the four bables. She was living in a tumbled down shack, the walls of which were full of kinks. She and the children were in rags and all of them had been starved almost to death. The broken-hearted old man found his daughter wandering about the outskirts of the town, her 3-months-old baby in her arms, both almost naked.

With a roaring cold wind whipping her tattered calico dress around her emaciated body, the young wonnan raved and sang and screamed and wept alternately, her brain shattered with grief and sickness and despair at her husband's cruel desertion. The gray halred old man led his tottering girl back to town and brought her to Salt Lake City. It is feared that she will die, and the physicians say that she is hopelessly insane.

Dr. Seymour B. Young testified as to the woman's insanity. Miss Emma Broberg, sister of Mrs. Fowler, testified as to Fowler's abuse and neglect of his young wife ever since their marriage.

The case was continued until Friday morning, when the defendant will testify in his own behalf.

tify in his own behalf.
So outraged did the county attorney feel over this case that he went to the unusual extreme, in a non-support matter, of sending an officer to Albion, Idaho, where Fowler had fled when a warrant was issued for his arrest.

BIG IRRIGATION SCHEME,

andowners of Juab County Want to Purchase Hatchtown Reservoir.

Land owners in Just county have developed a scheme to irrigate about 14,000 acres of land there by use of the water in the Hatchtown reservoir in Garfield county, 150 miles away. They have made a proposition to the stute board of land commissioners which was received this morning to purchase the reservoir and dam which is being constructed by the state under the direction of the land board. It is estimated that the dam and reservoir will cost about \$165,000. The land board will meet and consider the matter because the state has got so much money tied up in the project.

It is proposed by the Juab land owners to turn the water into the Sevier river near the reservoir where it is stored and then take it out again from the Sevier river in Juab county.

COURT NEWS

TO BE TRIED AT DENVER. Commissioner Baldwin Issues Order in

Case of Howell Snowden.

Case of Howell Snowden.

Charles Baldwin, United States commissioner, this morning issued an order of removal in the case of Howell Snowden, who was arrested in Brigham City Monday on a charge of tampering with the malls at Denver. He will be taken to the Colorado city for trial some time Friday. Snowden held a responsible position in the Denver postoffice Suspicion pointed to him and he was caught red handed, according to the federal officials. He was indicted by the grand jury but jumped his bond and, after a long chase, was finally located at Brigham City.

GETS BALANCE OF \$33.

Dr. Titcomb Given Judgment for \$675, And Sullivan for \$641.

And Sullvan for \$641.

Dr. C. B. Titcomb, through his assignee, Henry Cohn, secured judgment against J. D. Sullivan, an inventor, for \$675 on a promissory note with interest in Judge George G. Armstrong's court this morning. But Sullivan obtained judgment for \$641 against Titcomb for expenses and interest in his
